OUR BEEF

SERVING QUALITY MEAT SINCE 1930

The way in which we guarantee the highest quality in beef in both texture and flavour is by choosing Irish beef and the highest grade of traditional breeds of cattle. Our prime cuts are hung on the bone at 4°C and at 80% humidity for a minimum of 28 days.

Storing meat for several weeks where it can lose up to 16% of its weight involves considerable expertise so all

F.X. BUCKLEY butchers are specifically trained for the process. The benefit for our patrons is to experience the concentration and saturation of natural meat flavours and superior tenderness. Hence why you will hear experts use terms such as “buttery and rich”, and “earthy and nutty” to describe our dry-aged beef.

OUR STEAKS

RUMP

Rich, beefy taste with a firm, juicy bite.

T-BONE

A cross cut containing the fillet and the sirloin, it contains a T-shaped bone for extra flavour.

SIRLOIN

One of the most flavoursome steaks, and it's almost as tender as fillet, cut from the middle so you get more prime meat for your money.

SIRLOIN ON THE BONE

This steak has all the quality of the sirloin but has extra flavour by being cooked on the bone. Also known as the Kansas City Strip.

FILLET

The most tender of steaks and lean in appearance. This meat has a sublime, subtle flavour and is available in steaks and medallions.

RIB EYE

Delicious beefy flavour, this heavily marbled cut has a ribbon of fat at its core which melts during cooking, making the meat sensationally juicy.

RIB EYE ON THE BONE

It has all the flavour of the rib eye but has extra flavour by being cooked on the bone. Also known as Cowboy, Tomahawk and Côte de Boeuf.
